Level tests

At KL Keep Learning, we continue our commitment to making English language learning accessible to everyone.

This month, we conducted free placement tests at our locations in Encinas Reales, Benamejí, and Cuevas de San Marcos. Our goal was to guide new students and help them understand their actual English level before beginning their course.

These tests allow us to tailor each course to each student's starting point, ensuring effective, personalized, and motivating learning.

 Thank you to everyone who participated and trusted us to help you take your first step toward improving your English!
